

# Bunching / Banding Machine

- Used for vegetables bunching & seafood banding
- Easy band width adjustment
- Suitable for biodegradable Thermoplastic Polyurethane (TPU) bands
- Semi automated bunching for greater ergonomics
- Industrial Programmable Logic Controller (PLC) driven system
- Options include remote assistance and productivity monitoring with Smart Factoree™

## General Specifications

- Weight: Approx. 50 kg
- Dimensions: Approx. 30" X 30" X 20" (762 X 762 X 508 mm)
- Air supply: 100 psi (690 kpa)
- Electric: 120 VAC. - 120-240V, 50-60 Hz
- Network: Ethernet or Wifi optional for remote access & productivity monitoring

## Performance

- Band opening size: Up to 6.5" (165 mm)
- Band width: 4 to 15 mm
- 20 to 30 cycle per minutes
- 20 to 30 bands per minutes
- Operator performance monitoring software available

## Band Supply

- TPU in boxes or on rolls
- Rubber extruded tubing
